The school must, with appropriate stakeholder input, systematically develop and annually update a continuous school improvement plan (CSIP). The plan, based on the school’s philosophy, mission, vision, core values, and schoolwide expected student outcomes, includes specific goals, as well as action items. The process is driven by data collection and analysis. This plan must have significant focus on how it will promote organizational growth and high achievement of schoolwide expected student outcomes. The CSIP reflects a pervasive culture of ongoing improvement and accountability. The CSIP should reflect major goals determined as priorities through the self-study process.
